HP Software Education

Training Schedule – Australia/New Zealand
Winter/Spring 2009

You have invested in the most powerful suite of IT management software available. Now make the most of that investment with training from HP.

HP Software Education provides a comprehensive curriculum for all HP software products. We offer different methods of training delivery at multiple locations across the world, including: Instructor-Led Training, in our classrooms, or at your location; Virtual Instructor-Led Training, delivered online; Web Based Training; End User Training, and customised training courses.

We know HP software inside and out, which enables us to deliver the best training experience possible for you and your staff! Maximise the value of your HP software by enabling your staff with the tools they need to fully deploy your investment today.

Accredited Systems Engineer – Australia/New Zealand
